A PDI Case Study

R.B. Stewart

Petroleum Products, Inc.

Overview

HQ: Angleton, TX, since 1974
Industry: Fuel Transportation and Logistics Services
Solution: PDI Intellifuel

Business Challenge

- Wanted to improve efficiency by doing away with time-consuming manual processes across the company
- Needed to gain increased insight into its business and the day-to-day activities of its drivers as well as purchasing patterns and allocations
- Wanted a solution that would help control headcount and payroll costs

“It allowed us to grow a
**Geographic
Footprint**
at the same time as
**Maintaining
Costs.**”

Process automation allowed R.B. Stewart to realize efficiencies and control annual costs.

Customer Results

Automates otherwise manual processes

Controls labor and payroll costs

Increases insights into day-to-day business

Helps monitor purchasing patterns and allocations

It's been kind of a game changer.
