A PDI Case Study

Overview

HQ: Lake Jackson, TX since 1982
Industry: Convenience Retail
Size: 25+ Locations
Solution: PDI Enterprise

Business Challenge

- Lacked growth due to a legacy system equipped without integration options
- Needed a centralized database due to limited operations visibility and communication, leading to multiple versions of the truth
- Wanted to implement an SQL-based inquiry system

Decreased fuel
invoicing to
mere minutes

Decreased closing period from three or four days to **3-4 hours.**

Customer Results

Reduced time necessary for period closing process

Improved consistency and integrity of reporting

Simplified store-level auditing

Eliminated manual entry for invoicing and reporting

PDI promotes a culture of communication and collaboration with their customers, and that's why they get it right.
