

Flyers Energy

A PDI Case Study

Overview

HQ: Auburn, CA since 1979
Industry: Wholesale and Retail Fuel
Size: 60 Locations
Solution: PDI Enterprise

Business Challenge

- Required a centralized, enterprise-wide software system to bring together the recently acquired businesses
- Wanted to decrease the number of systems in place across the company
- Limited by existing software's ability to handle the complexities of petroleum marketing business
- Needed to improve the accounting and operational systems

15,000+

transactions imported,
updated, processed, and
billed every day

Now saving more than \$350,000 a year.

Customer Results

Automated the process for reconciling and paying invoices

Handled a large number of commercial fueling accounts

Matched daily data to bank information with automated cash management system

Eliminated manual processes and created operational efficiencies that save time and money

PDI helps us drive efficiency throughout our entire organization.

Tom Di Mercurio, CFO, Flyers Energy
